

If the school has to close we will be setting work on E-schools each day for the children. There will be a maths and English task and another subject set on a daily basis. There are a variety of tasks linked to our curriculum and progression skills.

1. Go to our school website and click the green login box at the top right hand corner or type Heathcote e schools into a search engine. Click on the link Login/Heathcote primary school and it will take you to the box displayed here.

The screenshot shows the eSchools login interface. At the top, there is a search bar with the text 'Please login...' and a 'Picture Login' option. Below this are two input fields: 'Username or Email Address' and 'Password'. A green 'LOGIN' button is located at the bottom right of the form. In the top right corner of the page, there are links for 'Contact support' and 'Visit school website'.

2. Once you have logged in (logins can be obtained from your child's teacher or the office), you will be on your child's Dashboard which shows you what they are currently learning in class. To find the work set by the class teacher click 'My class' on the toolbar at the top.

3. Then click **Projects** on the left hand side to find the work which has been set by the teacher. Here is an example from a year 2 project.

The screenshot shows the 'My class' page in eSchools. On the left, there is a vertical sidebar with navigation options: 'Projects', 'Homework', 'Class members', and 'Chat'. The main content area is titled 'Home Learning - Week beginning 25th January 2021' and contains a table of tasks.

Item Name	Timescale	Deadline
Home Learning Timetable - 25th Jan...	ongoing	N/A
Monday 25th January 2021	ongoing	30/01/2021

4. There will be a variety of activities to click on and they will be dated. There will always be a maths and English task and then another subject to work on. A weekly timetable is uploaded at the start of the week to show you the expectations for the week.
